|--|-----------|--|

enable it to discharge its duties and responsibilities effectively.

Recommendation 2.2

No

Aurora does not currently have a skills or diversity matrix in relation to the Board members. The Board considers that such a matrix is not necessary given the current size and scope of Aurora's operations. The Board may adopt such a matrix at a later time as Aurora's operations grow and evolve.

A listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that the board currently has or is looking to achieve in its membership.

Recommendation 2.3

Yes

Disclosure of the names of Directors considered by the Board to be independent will be provided in the annual reports.

A listed entity should disclose:

- (a) the names of the directors considered by the board to be independent directors;
- (b) if a director has an interest, position, association or relationship of the type described in Box 2.3 of the Recommendations but the board is of the opinion that it does not compromise the independence of the director, the nature of the interest, position, association or relationship in question and an explanation of why the board is of that opinion; and
- (c) the length of service of each director.

At the Prospectus Date, Paul Kehoe and Dick Herman are considered to be independent Directors.

Details of the Directors' interests, positions, associations and relationships are provided in the Directors Report.

The length of service of each Director will be provided in the annual report and is, at the Prospectus Date, as follows:

 - David Parker – since 23 November 2015; and

-

Recommendation 2.4

No

The Board is not comprised of a majority of independent Directors. There are currently two Directors who satisfy the criteria for independence for the purposes of ASX Recommendation 2.3, being Paul Kehoe and Dick Herman.

A majority of the board of a listed entity should be independent directors.

However, given the size and scope of Aurora's operations, the Board considers that it has relevant experience in the industrial technology sector and is appropriately structured to discharge its duties in a manner that is in the best interests of Aurora and its Shareholders from both a long-term strategic and operational perspective.

The Board Charter provides that it is preferable that the majority of the Board be independent Non-Executive Directors. Accordingly, the Board intends to appoint further independent Non-Executive Directors as suitably qualified candidates are identified and as the size and scale of Aurora's operations warrant such appointment.

Recommendation 2.5

Yes

The Board considers that the Chairman of Aurora, Paul Kehoe, is an independent Director in accordance with the criteria for independence outlined in ASX Recommendation 2.3.

The chair of the board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.

Recommendation 2.6

No

Aurora does not currently have a formal induction program for new Directors nor does it have a formal professional development program for existing Directors. The Board does not consider that a formal induction program is necessary given the current size and scope of Aurora's operations.

A listed entity should have a program for inducting new directors and provide appropriate professional development opportunities for directors to develop and maintain the

skills and knowledge needed to perform their role as directors effectively.

The Directors have been selected on the basis that collectively they have experience across industrial technology, manufacturing, legal services, accounting, geology, finance and corporate advisory services. Some of the current Directors are also, or have been, involved in other ASX-listed companies.

All Directors are generally experienced in company operations, albeit in different aspects (e.g. operations, finance, corporate governance etc.), and have listed company experience. Some of the current Directors are also directors of other listed companies. The Board seeks to ensure that all of its Shareholders understand Aurora's operations. Directors also attend, on behalf of Aurora and otherwise, technical and commercial seminars and industry conferences which enable them to maintain their understanding of industry matters and technical advances.

Principal 3: Act ethically and responsibly

Recommendation 3.1

Yes

A listed entity should:

- (a) have a code of conduct for its directors, senior executives and employees; and
- (b) disclose that code or a summary of it.

The Board believes that the success of Aurora has been and will continue to be enhanced by a strong ethical culture within the organisation.

Accordingly, Aurora has established a Code of Conduct which sets out the standards with which the Directors, officers, managers, employees and consultants of Aurora (and any future subsidiaries of Aurora) are expected to comply in relation to the affairs of Aurora's business and when dealing with each other, Shareholders and the broader community.

The Code also outlines the procedure for reporting any breaches of the Code and the possible disciplinary action Aurora may take in respect of any breaches.

In addition to their obligations under the Corporations Act in relation to inside information, all Directors, employees and consultants have a duty of confidentiality to Aurora in relation to confidential information they possess.

In fulfilling their duties, each Director dealing with corporate governance matters may obtain independent professional advice at Aurora's expense, subject to prior approval of the Managing Director, whose approval will not be unreasonably withheld.

Aurora's Code of Conduct is available on Aurora's website.

Principal 4: Safeguard integrity in corporate reporting

Recommendation 4.1

Yes

The board of a listed entity should:

- (a) have an audit committee which:
 - (1) has at least three members, all of whom are Non-Executive Directors and a majority of whom are independent directors; and
 - (2) is chaired by an independent director, who is not the chair of the board,and disclose:
 - (3) the charter of the committee;

Aurora has established a separate Audit Committee under its Audit Committee Charter.

The Audit Committee comprises Paul Kehoe (Non-Executive Chairman), David Parker (Non-Executive Director and Company Secretary) and Dick Herman (Non-Executive Director).

The chairperson of the Audit Committee is Dick Herman who is considered by the Board to be 'independent' for the purposes of the ASX Recommendations.

The Audit Committee comprises a majority of independent Directors.

Aurora's Audit Committee Charter sets out the purpose and functions of the Audit Committee.

| | |
|--|---|
| <p>(4) the relevant qualifications and experience of the members of the committee; and</p> <p>(5) in relation to each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or</p> <p>(b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard the integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.</p> | <p>The qualifications, experience and attendance record of Audit Committee members will be disclosed in each year's annual report.</p> <p>The Audit Committee Charter is available on Aurora's website.</p> |

| <p>Recommendation 4.2</p> <p>The board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.</p> | <p>Yes</p> <p>As a matter of practice, Aurora obtains declarations from its Managing Director and Company Secretary before its financial statements are approved substantially in the form referred to in ASX Recommendation 4.2.</p> |

|---|---|

Principal 5: Make timely and balanced disclosure

| | |
|--|---|
| <p>Recommendation 5.1</p> <p>A listed entity should:</p> <p>(a) have a written policy for complying with its continuous disclosure obligations under the Listing Rules; and</p> <p>(b) disclose that policy or a summary of it.</p> | <p>Yes</p> <p>Aurora has adopted a Continuous Disclosure and Market Communications Policy.</p> <p>Aurora is a "disclosing entity" pursuant to section 111AR of the Corporations Act and, as such, will be required to comply with the continuous disclosure requirements of section 674 of the Corporations Act and Chapter 3 of the Listing Rules, following admission to ASX.</p> <p>Aurora is committed to observing its disclosure obligations under the Corporations Act and, following admission to ASX, its obligations under the Listing Rules. All announcements provided to ASX will be posted on Aurora's website.</p> <p>The Continuous Disclosure and Market Communications Policy is available on Aurora's website.</p> |

Yes

Aurora supports Shareholder participation in general meetings and seeks to provide appropriate mechanisms for such participation, including by ensuring that meetings are held at convenient times and places to encourage Shareholder participation.

In preparing for general meetings of Aurora, Aurora will draft the notice of meeting and related explanatory information so that they provide all of the information that is relevant to Shareholders in making decisions on matters to be voted on by them at the meeting. This information will be presented clearly and concisely so that it is easy to understand and not ambiguous.

Aurora will use general meetings as a tool to effectively communicate with Shareholders and will allow Shareholders a reasonable opportunity to ask questions of the Board and to otherwise participate in the meeting.

Mechanisms for encouraging and facilitating Shareholder participation will be reviewed regularly to encourage the highest level of Shareholder participation.

Recommendation 6.4

A listed entity should give security holders the option to receive communications from, and send communications to, the entity and its security registry electronically.

Yes

Aurora considers that communicating with Shareholders by electronic means is an efficient way to distribute information in a timely and convenient manner.

Aurora provides new Shareholders with the option to receive communications from Aurora electronically and Aurora encourages them to do so. Existing Shareholders are also encouraged to request communications electronically.

Following admission to ASX, all Shareholders that have opted to receive communications electronically will be provided with notifications by Aurora when an announcement or other

communication (including an annual reports and notice of meeting) is uploaded to the ASX announcements platform.

Principal 7: Recognise and manage risk

Recommendation 7.1

No

Aurora does not have a separate risk management committee.

The board of a listed entity should:

- and disclose
- (3) the charter of the committee;
 - (4) the members of the committee; and
 - (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or
- (b) if it does not have a risk committee or committees that satisfy (a) above, disclose that fact and the processes it employs for overseeing the entity's risk management framework.

The Board is responsible for supervising management's framework of control and accountability systems to enable risk to be assessed and managed in accordance with Aurora's Risk Management Policy.

The Board considers that, given the current size and scope of Aurora's operations and that only two Directors hold executive positions in Aurora, efficiencies or other benefits would not be gained by establishing a separate risk management committee at present.

As Aurora's operations grow and evolve, the Board will reconsider the appropriateness of forming a separate risk management committee.

However, Aurora has adopted a Risk Management Policy for Aurora which includes the following:

- The purpose of the policy is to:
 - provide a framework for identifying, assessing, monitoring and managing risk;
 - communicate the roles and accountabilities of participants in the risk management system; and
 - highlight the status of risks to which Aurora is exposed, including any material changes to Aurora's risk profile.
- The Board is responsible for the following under the policy:
 - risk management and oversight of internal controls;
 - establishing procedures which provide assurance that business risks are identified, consistently assessed and adequately addressed; and
 - for the overseeing of such procedures.

The Risk Management Policy is available on Aurora's website.

Recommendation 7.2

Yes

The Board has responsibility for the monitoring of risk management and will review Aurora's risk management framework on an annual basis to ensure Aurora's risk management framework continues to be effective.

The board or a committee of the board should:

- (a) review the entity's risk management framework at least annually to satisfy itself that it continues to be sound; and
- (b) disclose, in relation to each reporting period, whether such a review has taken place.

Disclosure of the outcome of the annual risk management review will be included in the annual report.

Recommendation 7.3

No

Aurora does not currently have an internal audit function. This function is undertaken by relevant staff under the direction of the full Board.

A listed entity should disclose:

- (a) if it has an internal audit function, how the function is structured and what role it performs; or
- (b) if it does not have an internal audit function, that fact and the processes it employs for evaluating and continually

Aurora has adopted internal control procedures which pursuant to its Risk Management Policy. Aurora's internal controls include the following:

- Aurora has authorisation limits in place for expenditure and payments;

improving the effectiveness of its risk management and internal control processes.

- Aurora prepares cash flow forecasts which include materiality thresholds and which are regularly reviewed; and
- Aurora regularly reviews its other financial materiality thresholds.

The Board and senior management are charged with evaluating and considering improvements to Aurora's risk management and internal control processes on an ongoing basis.

The Board considers that an internal audit function is not currently necessary given the current size and scope of Aurora's operations.

As Aurora's operations grow and evolve, the Board will reconsider the appropriateness of adopting an internal audit function.

Recommendation 7.4

A listed entity should disclose whether it has any material exposure to economic, environmental and social sustainability risks and, if it does, how it manages or intends to manage those risks.

Yes

The Board does not consider that Aurora has a material exposure to environmental and social sustainability risks.

However, Aurora's primary operation of manufacturing and supplying 3D metal printers, consumables and accessories is subject to various economic sustainability risks which may materially impact Aurora's ability to operate and to generate value for Shareholders. These include:

- **Technology development risk:** Aurora's financial success is primarily dependent upon its ability to further develop and commercialise its technology. Any new industrial technology is subject to inherent development risks which may have a significant adverse effect on Aurora's financial position, including technical problems in development and new competing innovations or products.
- **Intellectual property risks:** Aurora has applied for various patents in relation to aspects of its technology. Its success will largely depend upon the successful grant and maintenance of these patent applications. The grant of patents applications is subject to various legal and technical matters and there cannot be any assurance that Aurora's applications will be granted or, if granted, that they will provide the commercial advantage that Aurora desires.
- **Commodity price fluctuations:** Aurora's 3D metal printing machines operate using various metallic substances and other commodities which Aurora intends to supply to its customers. Commodity prices are subject to fluctuation which may affect the cost of procurement and revenue on the sale of such commodities by Aurora.
- **Exchange rate fluctuations:** The revenue and expenditure of Aurora is and will be taken into account in Australian and other currencies (e.g. US dollars, Euros etc.), exposing Aurora to the fluctuations and volatility of the rates of exchange between the Australian dollar and those other currencies as determined in international markets.

Aurora has adopted the Risk Management Policy and other procedures to identify, mitigate and manage these risks. These policies are updated from time to time as the Board considers

appropriate in the circumstances for the management of Aurora's risk profile.

Principal 8: Remunerate fairly and responsibly

Recommendation 8.1

The board of a listed entity should:

- (a) have a remuneration committee which:
- (1) has at least three members, a majority of whom are independent directors; and
 - (2) is chaired by an independent director,
- and disclose:
- (3) the charter of the committee;

 - (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or
- (b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.

No

Aurora has not established a separate remuneration committee.

The role of the remuneration committee is undertaken by the full Board. The Board considers that, given its current size and that only one Director holds an executive position in Aurora, efficiencies or other benefits would not be gained by establishing a separate remuneration committee.

Following admission to ASX, Aurora will set out the remuneration paid or provided to Directors and senior executives annually in the remuneration report contained within Aurora's annual report to Shareholders. The full Board determines all compensation arrangements for Directors. It is also responsible for setting performance criteria, performance indicators, share option schemes, incentive performance schemes, superannuation entitlements, retirement and termination entitlements and professional indemnity and liability insurance cover.

As Aurora's operations grow and evolve, the Board will reconsider the appropriateness of forming a separate remuneration committee.

The Nomination and Remuneration Policy is available on Aurora's website.

Recommendation 8.2

A listed entity should separately disclose its policies and practices regarding the remuneration of Non-Executive Directors and the remuneration of Executive Directors and other senior executives.

Yes

Following admission to ASX, Aurora's policies and practices regarding the remuneration of Executive and Non-Executive Directors and other senior executives is set out in the Remuneration Report contained in Aurora's Annual Report for each financial year.

Recommendation 8.3

A listed entity which has an equity-based remuneration scheme should:

- (a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and
- (b) disclose that policy or a summary of it.

Yes

Aurora has adopted an Employee Incentive Plan. In accordance with Aurora's Securities Trading Policy, the plan does not allow participants to enter transactions that would limit their economic risk under the scheme.

Aurora's Securities Trading Policy sets out the circumstances in which the Directors, executives, employees, contractors, consultants and advisors (**Designated Persons**) are prohibited from dealing in Aurora's Securities.

The policy provides that where a Designated Person is entitled to equity-based remuneration arrangements, that Designated Person must not at any time enter into a transaction (e.g. writing a call option) that operates or is intended to operate to limit the economic risk of holdings of unvested Aurora Securities or vested Aurora Securities which are subject to a holding lock.

The Securities Trading Policy is available on Aurora's website.
