AdditiveNow Update

Aurora Labs Limited ("A3D" or "the Company") (ASX:A3D) announces a new process for delivery of its AdditiveNow contracts. The revised AdditiveNow project delivery process will result in A3D performing services to customers directly as a contractor or via a subcontractor arrangement with Worley Services Pty Ltd ("Worley")

A3D announces it has formally ended its incorporated joint venture with Worley that was previously announced on 20 December 2018.

This new structure will be applied to new and existing AdditiveNow clients for the ongoing delivery of existing service level agreements and purchase orders to ensure no disruption to service delivery.

As a result of this restructure, it is expected that certain AdditiveNow contracts held by the joint venture entity will be novated to A3D.

A3D CEO Peter Snowsill said;

"We are available to become the prime contractor for certain AdditiveNow contracts and look forward to delivering a significant body of work over the coming period. Servicing growing print demand from the local energy and resources market is a vital piece of A3D's overall strategy.

It's business as usual with our AdditiveNow customers and we look forward to expanding our print services business."

Ends

Approved for release by the Company's Board of Directors.
