Qualification Print Order

Highlights:

- Aurora Labs has received a qualification print order from Woodside Energy Technologies Pty Ltd.
- The order requires Aurora to print a variety of tests samples in a single print. This qualification print is a pre-requisite before performing any further print work for Woodside.
- The print will be analysed by external laboratories including mechanical tests, corrosion tests and optical scans.

Aurora Labs Limited ("A3D" or "the Company") (ASX:A3D), is pleased to announce it has received a qualification print order from Woodside Energy.

The order, worth approximately \$30,000 AUD, is not material from an income perspective. However, it demonstrates the increasing interest from industry to print parts locally. It is also indicative of the local market potential available to Aurora to generate print services income using its metal printers designed and built in-house.

The qualification print is a pre-requisite before proceeding with any future print work for Woodside and Aurora is committed to completing the work scope and sharing the results with Woodside.

Corporate Development & Commercialisation Manager Matthew Lester commented:

"We are pleased to receive this PO from Woodside and I look forward to us demonstrating the quality that our technology can deliver to local clients. This PO, combined with the increasing levels of demand we've seen recently from the Australian market reinforces our strategy to focus on near-term revenue opportunities whilst we continue our wider machine commercialisation strategy."

Ends.

Approved for release by the Company's Board of Directors.

FORWARD LOOKING STATEMENTS

This announcement contains forward-looking statements which incorporate an element of uncertainty or risk, such as 'intends', 'may', 'could', 'believes', 'estimates', 'targets' or 'expects'. These statements are based on an evaluation of current economic and operating conditions, as well as assumptions regarding future events.

These events are, as at the date of this announcement, expected to take place, but there cannot be any guarantee that such events will occur as anticipated or at all given that many of the events are outside Aurora's control.

Accordingly, Aurora and the directors cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur. For further information, please contact: enquiries@auroralabs3D.com
